## force push updates from wsus

force push updates from wsus

exe Security Rating: Windows Update AutoUpdate Client This is a background process which checks with the Microsoft website for updates to the operating.. I'm not sure how to get a download progress of each update Note on command- line switches: If you don't specify a switch (for example, 'email: ') the corresponding variable defined in the script will provide the needed information (command- line switches take precedence).. The user ignores the 'you have new updates available' message, so updates are never installed.

BatchPatch is a software patch management tool Remotely initiate Windows Update, WSUS, software deployments, and reboots on many computers, simultaneously.. Link Id=4 32 64str Mail From - arbitrary reply- to addressstr Mailto - email address you want the report to mail to (this is for manual mode - or if the command- line switch isn't specified)..
